Scholastica

***Burns Wellness Center
Auditorium, Room 249***

Duluth, MN

Featured Speakers:

Len Anderson Retired biology Teacher

Marc Fink Attorney, Center for Biological Diversity

Bob Tammen Retired mine worker

Nancy Schuldt Water Projects Coordinator, Fon du Lac Band

Steve Koschak Owner, River Point Resort & Outfitting Co. Ely, MN

A type of mining that has never been done in Minnesota is being proposed for numerous sites around our region. Non-ferrous mining, also called copper-nickel or sulfide mining, could threaten our water, our ecosystems and our way of life. All are invited to come with questions and learn more about sulfide mining, the plans for our region and the impacts it could have on all of us.

- **Question and answer session to follow speakers**
 - **Screening of "Precious Waters" video**
 - **Refreshments served**
